DOCUMENT STYLE

Key Words

The key words "MUST," "MUST NOT," "REQUIRED," "SHALL," "SHALL NOT," "SHOULD," "SHOULD NOT," "RECOMMENDED," "MAY," and "OPTIONAL" in this document's normative statements are to be interpreted as described in RFC 2119: Key words for use in RFCs to Indicate Requirement Levels.

Statement Type

Please note an important distinction between different sections of text throughout this document. There are two distinctive kinds of text: *informative comments* and *normative statements*. Because most of the text in this specification will be of the kind *normative statements*, the authors have informally defined it as the default and, as such, have specifically called out text of the kind *informative comment*. They have done this by flagging the beginning and end of each informative comment and highlighting its text in gray. This means that unless text is specifically marked as of the kind *informative comment*, it can be considered a *normative statement*.

EXAMPLE:

> ***Start of informative comment***
>
> This is the first paragraph of 1–n paragraphs containing text of the kind informative comment …
>
> This is the second paragraph of text of the kind informative comment …
>
> This is the nth paragraph of text of the kind informative comment …
>
> To understand the TCG specification, the user must read the specification. (This use of MUST does not require any action).
>
> ***End of informative comment***
